※ Connection with external coolant tube

SPARE PARTS

Designation	Clamping screw	Wrench
JSE2R**16-CHP	CSTB-3.5	T-15F

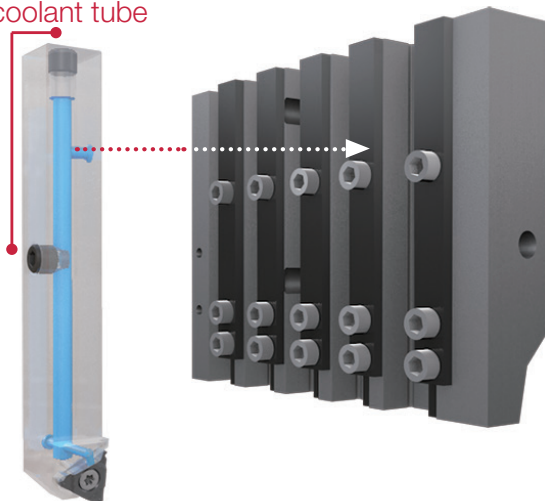

DIRECTTUNG system

No need for coolant tube setup.

Eliminates chip entanglement on tubes and streamlines tool replacement.

Coolant is supplied from the tool post directly to the tools

Internal thread
Optional connection with
external coolant tube

Detailed view of the coolant
flow after connection
